

POSTER PRESENTATIONS

P1	Alkim Karakus, Aycan Yigit Cinar Postbiotics in Dairy Systems: Functional Properties and Technological Applications	148
P2	Gulzhan Zhumaliyeva, Urishbay Chomanov, Assiya Shoman Development of Functional Galette Products with a Complex Biologically Active Additive Based on Jerusalem Artichoke, Sprouted Cereals, and Licorice Root	149
P3	Oznur Kiyma, Merve Guven, Hilal Ozge Boyraz, Sena Okur, Nadide Seyhun, Aycan Yigit Cinar Development of Mineral-Enriched Ayran: Effects on Physicochemical Properties and Sensory Quality	150
P4	Berna Gursoy, Duygu Guler, Esra Tuncer Effects of Rice Protein Isolate and Gum Concentration on Rheology and Emulsion Stability of Vegan Mayonnaise	151
P5	Ayşe Gamze Atilgan Flavour Compounds in Beverages: Their Role in Sensory Quality and Consumer Perception	152
P6	Busra Akdeniz Oktay, Mehmet Serdar Bulbul, Elif Turabi Yolacaner Functional Fortification of Yogurt with Cactus Pear (<i>Opuntia ficus-indica</i> L.) Peel Extract and Niosomal Delivery Systems	153
P7	Ebru Uctepe, Sibel Uzuner Green Extraction Approach for the Recovery of Microalgal Pigments from <i>Chlorella vulgaris</i>	154
P8	Eda Furtana, Sude Firat, Buse Cakin, Ayhan Topuz Effects of Oil Type, Stabilizer, and Storage Temperature on Lycopene Stability and Physicochemical Properties of Tomato Pomace Powder-Based Emulsions	155
P9	Mehmet Ergul Yesilyurt, Ash Oztug, Mucahit Enes Gundogdu, Aysenur Ozler Effect of Drying and Irradiation Technologies on Product Quality and Shelf Life in Spices	156
P10	Basak Gurbuz Tuzen, Meltem Coban, Mumin Alacam Development of a Jelly Matrix Enriched with Vitamin D and B-Complex	157
P11	Yaren Aday, Zeynep Tacer Caba Development of 3D-Printed Berberine-Enriched Gummy Formulations for Functional Food Applications	158
P12	Gulsah Tunca Eren, Kubra Ozkan, Hamit Koksel, Osman Sagdic Sustainable Development of Low-Glycemic Functional Bazlama from High-Amylose Wheat Flour Using Type II Sourdough Fermentation	159
P13	Zahra Najafi, Leyla Nesrin Kahyaoglu PLA/ZIF-67 Nanocomposite Films for Intelligent Food Packaging	160
P14	Mecit Murat Polat, Osman Sagdic, Osman Gunay, Hasan Cankurt Decontamination of Environmentally Contaminated Corn: A Mechanistic Review of Physicochemical and Bioprocesses for Food Security	161
P15	Merve Kahraman Use of Monk Fruit Sweetener in Food Production	162
P16	Szymon Powalowski, Daniela Gwiazdowska Beneficial Role of Lactic Acid Bacteria in Animal Feed Additive	163

POSTER PRESENTATIONS

P17	Mecit Murat Polat, Osman Sagdic, Hasan Cankurt Post-Harvest Physiology and Customized Engineering Solutions in Controlled Environment Agriculture (CEA): A Comprehensive Review from Anatomical Weaknesses to Regulatory Gaps	164
P18	Tugba Dursun Capar, Esra Merve Turkmen Edible Films: Innovative Approaches for Sustainable Food Packaging	165
P19	Zeynep Kostek, Zisan Yalcinkaya, Dilan Sarpkaya, Muge Kesici Baysoy, Fatih Kahraman, Gul Tekin Temur, Zeynep Tacer Caba A comparison of olive leaves that grow in two different locations in Mediterranean (Türkiye and Malta)	166
P20	Dilara Dastan, Zeynep Gokmen Shelf-life Controls For Freeze-Dried Soft Candy Products	167
P21	Fatma Selin Goctu Technical Challenges and Quality Determinants in the Formulation of Functional Instant Powder Beverages	168
P22	Anıl Erdeal, Murat Koparal, Pelin Arabaci, Ozlem Dinc The Use of Films Made from Recycled Materials in Flexible Packaging	169
P23	Fatma Beyza Ozpinar, Selma Kayacan Cakmakoglu, Mehdi Abdollahi, Osman Sagdic, Enes Dertli Fermentation Efficiency and EPS Production in Pea Protein Isolate using <i>Weissella confusa</i> S6 for Food 3D Printing	170
P24	Burcu Ilayda Senturk, Banu Metin Applications of CRISPR/Cas Technology in Food-Related Filamentous Fungi	171
P25	Elif Ceren Kaya, Senem Kamiloglu Storage Stability of Antioxidant-Rich Green Extracts from Garlic (<i>Allium sativum</i> L.) Husk Obtained using Natural Deep Eutectic Solvents	172
P26	Berna Tellioglu, Nevruz Berna Tatlisu, Omer Said Toker Green Extraction Techniques for Food Waste Recycling: Potentials, Challenges, and Industrial Prospects	173
P27	Ezgi Pajo, Esra Tuncer Techno-functional Properties of Brewers' Spent Grain Flour and Potential Food Applications	174
P28	Cansu Celebi, Fatih Kus A Multi-Source Evaluation of Foaming, Rheology, Stability and Sensory Performance of Animal, Plant, Fermented Proteins in Aerated Food Systems	175
P29	Halide Ezgi Tuna Agirbas Clean Label Approaches in High-Fat Frozen Croissant Dough	176
P30	Rashad Ismayilov, Dicle Dilara Akpinar, Furkan Demirgul, Omer Simsek Synergistic Antibacterial Potential of Lactic Acid Bacteria Co-cultures Against Major Foodborne Pathogens in a Cost-Effective Medium	177
P31	Yaren Dogan, Elif Ruveyda Sahin, Duygu Ozmen, Omer Said Toker Formulation and Quality Assessment of Caramelized Biscuit Spreadable Creams	178

POSTER PRESENTATIONS

P32	Erhan Godek, Eylul Ozturk, Muhammet Arici A Comparison of the Physicochemical Properties, Mineral Profile, and Total Phenolic Content of Pistachio (<i>Pistacia vera</i> L.) Varieties from Different Geographical Origins	179
P33	Emine Dolu, Aysegul Kasbasi, Hatice Sena Olcay, Meral Yildirim-Yalcin Enrichment of Wheat Bread with Protein Isolate Obtained from Safflower Meal	180
P34	Gizem Ince, Kubra Ozkan, Hamit Koksel, Osman Sagdic Development of a Functional Fermented Soup: Tarhana Enriched with Resistant Starch, β -Glucan, and Plant-Based Protein for a Reduced Glycemic Index	181
P35	Tugce Ozcan Sahin, Suleyman Canseven, Ziyaddin Ekmen Spice -Coated Jelly Candy Product Formulation Development and Optimization	182
P36	Betul Arslan-Solmaz, Ayla Soyer Effects of Starter Culture Combinations on pH Evolution, Microbiological Quality, and Sensory Properties of Turkish Fermented Sausage (Sucuk)	183
P37	Kubra Nur Keles, Zeynep Hazal Tekin Cakmak Valorization of Almond Press Cake into Functional Protein Ingredients: Production of Protein Isolate and Hydrolysate via Ultrasound-Assisted Enzymatic Hydrolysis	184
P38	Gul Zeynep Kizmaz, Mehmet Timur Horozal Sustainability Approaches in Food Packaging: Feasibility, Risks, and Industrial Transformation Strategies	185
P39	Elif Ruveyda Sahin, Duygu Ozmen, Abdullah Kurt, Omer Said Toker Rheological Characterization of a Novel Synergistic Gum Based on Locust Bean Gum and Xanthan Gum in Plant-Based Hazelnut Milk Systems	186
P40	Nuzhet Idil Ozkan, Nur Cebi Development of Functional Fruit and Vegetable Juice Product and Evaluation of The Quality Properties	187
P41	Mina Mutlu, Gulsen Eylul Demir, Ceyda Aydogdu, Gulse Derbend, Tugce Ceyhan, Esin Mojtahedi, Kamil Bostan Production of Dried Functional Artichoke Snacks with Non-Thermal Pre-Treatment	188
P42	Zeynep Oksuz, Ayse Karadag, Rusen Metin Yildirim, Oznur Saroglu Preparation and Characterization of Emulsion-Templated Oleogel Loaded with Propolis	189
P43	Nilgun Gunal Membrane Technologies for Sustainable and Efficient Dairy Processing: Current Applications and Future Trends	190
P44	Melek Gunay, Hasan Oral Functional Cheese Development: A Review on Probiotic and Prebiotic Applications	191
P45	Redife Aslihan Ucar Evaluation of <i>Lactobacillus fermentum</i> Growth and Lactose Utilization Under Controlled Bioreactor Conditions	192
P46	Duygu Buyuktas, Pinar Kadiroglu Kelebek, Figen Korel Comparative Evaluation of Strawberry Quality in Different Domestic Refrigeration Environments	193

POSTER PRESENTATIONS

P47	Nisa Nur Karaset, Doga Solmaz, Tugce Baran, Hasan Cankurt Valorization of Cheese Whey in Pickle Production: A Novel Approach for Sustainable and Low-Sodium Fermentation Systems	194
P48	Buket Erdogan, Mahmut Ekrem Parlak, Furkan Turker Saricaoglu Three-Phase Partitioning: A Green Extraction Strategy for Plant-Based Biomolecules	195
P49	Edanur Kayikci, Aysenur Betul Bilgin, Fatih Bozkurt, Bulent Karadeniz Sustainable Production of Pectin from Citrus Waste: Optimization of Citric Acid-Based Microwave-Assisted Extraction and Characterization	196
P50	Selcan Kocabas, Berna Ozturk Gluten-Free Bread Production Using Green Banana Flour: A Sustainable and Functional Approach	197
P51	Hasan Cankurt Gel-Mediated Brining Systems for Low-Sodium Foods: From Proven Application in White Cheese to Future Prospects in Fermented Vegetables	198
P52	Aybuke Sevim Upcycling of Food Byproducts: Strategies for a Sustainable and Functional Future	199
P53	Hasan Cankurt Risk-Based Post-Expiry Management of Dairy Products: Balancing Food Waste Reduction and Food Safety	200
P54	Sena Isildak Potential Use Of Coffee Silverskin in Food-Contact Surfaces	201
P55	Hande Gocmen, Ozlem Aslan, Halil Dasgin, Emine Aytunga Arik Kibar, Ayse Karadag Characterization of Protein Hydrolysates Derived from Potato Peel: Structural, Functional and Bioactive Properties	202
P56	Omer Karakoc, Hasan Cankurt, Osman Sagdic An Evaluation of Emission Calculations and Potential Emission Reduction Strategies in the Dairy Sector	203
P57	Omer Karakoc, Hasan Cankurt, Osman Sagdic <i>Locusta migratoria</i> as an Alternative Protein Source: Nutritional Composition and Its Potential Use in the Food Industry	204
P58	Hande Boyhan, Hasan Cankurt, Osman Sagdic Evaluation of Food Patent and Utility Model Applications in Türkiye in 2021-2022	205
P59	Melis Babacan, Omer Karakoc, Hasan Cankurt, Osman Sagdic The Impact of Meat Imports on the Sustainability of Domestic Production: An Assessment Through Economic Vulnerability, Production Continuity, and Environmental Pressures	206
P60	Melis Babacan, Omer Karakoc, Hasan Cankurt, Osman Sagdic Assessment of Climate Change Risks in Terms of Food Security	207
P61	Abdurrahman Sarac, Eylul Ozturk, Muhammet Arici Determination of Microbiological, Physicochemical, and Sensory Properties of <i>Lactobacillus</i> spp.-Fermented Aronia Puree	208

POSTER PRESENTATIONS

P62	Gizem Atik Reducing Plastic in Packaging: A Practical Approach to Sustainability	209
P63	Busra Onat, Dicle Dilara Akpınar, Furkan Demirgöl, Omer Simsek Fermentability of a Jerusalem Artichoke Powder-Based Synbiotic Beverage: Investigation of Fermentation Kinetics and Functional Properties	210
P64	Asuman Adali Fat-Hydrocolloid-Carbohydrate Matrix Design for Improved Stability and Texture of Dairy-Free Sorbet	211
P65	Merve Elmal, Nihal Barlak Sugar-Free Chocolate-Coated Ice Cream Bites: Textural and Sensory Optimization Using Polyols (Isomalt and Maltitol) and Inulin	212
P66	Melike Kucukates, Nevruz Berna Tatlısu Evaluation of Tamarind Seed as a Coffee Alternative Through Sensory Analysis	213
P67	Seyma Karaagac, Nur Cebi, Hatice Bekiroglu Effect of Grind Size and Roasting Degree on Bioactive and Physicochemical Properties of Cold Brew Coffee	214
P68	Busra Simsek, Eylul Ozturk, Sudenur Uguz, Fatih Bozkurt, Banu Metin, Muhammed Arici Gamma-aminobutyric acid (GABA) Production Using Lactic Acid Bacteria Isolated from Tarhana	215
P69	Sude Ecem Colakoglu, Ayse Karadag, Rusen Metin Yildirim, Oznur Saroglu Production and Characterization of CMC and CMC+MD Based Orally Disintegrating Films Containing Caffeine	216
P70	Aysegul Baydar, Sema Nur Yildirim, Fatma Nur Demirbas, Enes Dertli Identification of Bacteria Isolated from Cheeses of Different Geographical Origins	217
P71	Yagmur Sakar, Gizem Catalkaya, Esra Capanoglu Guven, Ayse Karadag Microencapsulation and Characterization of Polyphenol-Rich Extracts Obtained from Black Aronia Pomace by a One-Step Spray-Drying Method	218
P72	Kubra Cansu Yildirim, Serdar Karakurt, Serdar Uysal Effective Acrylamide Reduction in Bakery Products Using Recombinant Asparaginase	219
P73	Aran Aydin, Gamze Guzey The Role of Critical Equipment Calibration Frequency in Enhancing Environmental and Operational Sustainability within the Food Industry	220
P74	Gozde Kutlu, Fatih Bozkurt Front-of-Pack Nutrition Labels and the Nutri-Score Application within the Framework of Food Literacy	221
P75	Nilgun Basak Tecer Food Safety Challenges and Innovative Solutions in Edible Grapevine Leaves: A Sustainable Supply Chain Perspective	222
P76	Mehmet Ural, Ibrahim Yapa From Paper to Cloud: Digital Ecosystems and Sustainable Planning in Food Innovation Management	223

POSTER PRESENTATIONS

P77	Sefa Isik, Selcan Bingol, Resul Aydin Food Safety in Grated Fresh Vegetables: Impact of Grating Size on Pathogen Population at Storage Period	224
P78	Esra Celik, Muhammed Ozgolet, Zeynep Hazal Tekin Cakmak Bigels as Functional Fat Replacers in Low-Fat Vegan Ice Cream	225
P79	Bihter Cebeci, Senem Kamiloglu Beeswax as a Multifunctional Bio-Based Material: Composition, Properties, and Emerging Food Applications	226
P80	Simel Bagder Elmaci, Seyma Ozkan Bolukbasi, Ekin Selin Sahin Biotechnological Production of Xylitol from Hemicellulosic Hydrolysates of Pistachio Shells	227
P81	Pinar Sahin Dilmenler, Adnan Fatih Dagdelen, Perihan Yolci Omeroglu, Arzu Akpınar Bayizit Green Extraction of Carotenoids Using Natural Deep Eutectic Solvents: A Comprehensive Evaluation of Efficiency and Stability	228
P82	Gokce Gurun, Turgay Cetinkaya Reimaging Space Food With Aquatic-Derived Ready-To-Print Formulations	229
P83	Mediha Turgut Er, Nur Cebi Comparative Evaluation of Morphological Development and Nutritional Composition of Selected Aromatic Plants Cultivated in Conventional and Vertical Farming Systems	230
P84	Merve Ceke, Zeynep Ufakin Microbial Production of Mannitol	231
P85	Volkan Aslan, Asli Aksoy, Cihat Guner, Recep Kara, Hakan Basdogan Revalorization of Wheat Germ in Sustainable Gastronomy: From By-Product to a Multifunctional Culinary Platform	232
P86	Elif Aydin, Kemal Bolat, Seyda Guntulu Atay Replacement of Animal Based Gelatin with Plant-Sourced Modified Starch in Soft Candy Formulations	233
P87	Berfin Eda Elcik, Busra Kabak, Mustafa Baykara Evaluation of the Effectiveness of Bacteriophage Application Against <i>Listeria monocytogenes</i> in Chicken Sausages	234
P88	Fatma Serin Yalabik, Sibel Kaya Bayram, Yildiz Aktas The Effect of Functional Ingredients as Egg Substitutes in Chicken Meat Products	235
P89	Kerem Can Coskun, Gullu Aykara, Busra Kabak Effect of Modified Atmosphere Packaging Conditions and Gas Supply Methods on the Shelf Life and Microbiological Quality of Heat-Treated Chicken Products	236
P90	Merve Cayir, Sevim Kose Carbon Dots as Promising Nanomaterials for Food Packaging	237
P91	Ebru Kelleci Sarikaya, Sinem Sener Optimization of Sucrose Substitution with Apple Juice Concentrate in Jelly Confectionery Formulations using Mixture Design	238

POSTER PRESENTATIONS

P92	Sinem Sener, Ebru Kelleci Sarikaya Development of Vegan-Friendly Jelly Confectionery Using Apple Juice Concentrate and Gelatin Alternatives	239
P93	Busra Yusufoglu, Filiz Altay, Rukiye Yigit, Dila Cicek Olgun, Emine Feyza Mutlucan Flavonoid-based antibacterial wound dressing	240
P94	Saeideh S. Fatemizadeh, Osman Sagdic Exopolysaccharide Production by Fructophilic Sourdough Bacteria and Its Impact on Dough Properties: A Review	241
P95	Rabia Guner, Lorin Altin, Esma Gulsum Tilki, Elif Cakir Protein Bar Production Using Hydrogels Based on Green Lentil and Apricot Seed Flour	242
P96	Safiye Akbulut, Zeynep Bozkurt, Ertan Ermis, Cihat Guner, Serpil Pekdogan Goztok, Hakan Basdogan Sustainable Utilization of Wheat Germ Protein Isolate Powder in Noodle Formulation: Impact on Functional and Quality Properties	243
P97	Birsen Basak Adamoglu Minerals in Foods: Bioavailability, Interactions, and Processing Effects	244
P98	Esra Gokdere, Esra Avci, Fatemeh Bahadori, Aysen Can, Dilara Yalmanci, Muhammed Zahid Kasapoglu Development of Functional Ayran Containing Antioxidant Bioactive Components with Enhanced Bioavailability via Nano-clay	245
P99	Rabia Yusra Bayaman, Zuhail Alkay, Humeyra Ispirli, Tekmile Cankurtaran Komurcu, Osman Sagdic, Stephen R. Lindemann, Yunus Emre Tuncil, Enes Dertli Enzymatic Synthesis of Oligosaccharides via GS53 Glucanase and Their Impact on Human Gut Microbiota in Synbiotic Chocolate Formulations	246
P100	Munevver Beyza Karabiyik, Necattin Cihat Icyer, Duygu Ozmen, Fatih Bozkurt, Nevzat Konar, Omer Said Toker Use of Phosphatidylcholine (PC)-Enriched Fractions Derived from Sunflower Lecithin as Rheological Improvers in Milk Chocolate Production	247
P101	Kubra Doganlar, Naciye Afranur Mitaf, Kubra Saglam, Dicle Dilara Akpinar, Furkan Demirgul, Omer Simsek Enhancing the Functional Properties of Tarhana: The Role of Specific Starter Cultures on Bioactive Peptide Release and Antioxidant Activity	248
P102	Melis Babacan, Sevda Dere, Fatih Bozkurt, Hasan Cankurt, Osman Sagdic Evaluation of Lactulose Production Potential Using Whey as a Lactose Source	249
P103	Merve Hadimioglu Ozdemir, Hayriye Sebnem Harsa Sustainable Bacterial Cellulose Production from Agroindustrial Wastes by <i>Komagataeibacter sucrofermentans</i>	250
P104	Ilayda Hizir Kadi, Merve Hadimioglu Ozdemir, Hayriye Sebnem Harsa Ultrasound-Assisted Extraction of Bee Bread: Phenolic Content, Antioxidant and Antibacterial Activity, and High Extraction Yield	251

POSTER PRESENTATIONS

-
- P105** Aslihan Kamber, Hayriye Sebnem Harsa 252
Sustainable Production of Single Cell Protein from Whey Using Probiotic Lactic Acid Bacteria
-
- P106** Zeynep Agirbasli, Hayriye Sebnem Harsa 253
Bioconversion of Whey into GABA-Enriched Functional Beverage Bases Using Selected Lactic Acid Bacteria
-
- P107** Dora Mutlu, Sevda Dere, Selma Kayacan Cakmakoglu, Osman Sagdic 254
Effects of Fermentation and Enzymatic Hydrolysis on the Structural and Functional Properties of Plant Proteins
-
- P108** Gizemnur Kislal, Caglar Kulu, Hilal Ay, Tulin Ozbek 255
Isolation Of Probiotic Strains From The Locust Gut
-
- P109** Ilana Sarpekova, Alican Akcicek 256
Utilization of Plant-Based Food Byproduct in Mayonnaise Production
-
- P110** Oznur Turkmen, Taylan Kablan, Sumeyra Cimen, Salih Karasu, Muhammed Ozgolet, Alican Akcicek, Aziz Tekin, Enes Dertli, Sevda Dere, Zeynep Hazal Tekin Cakmak, Fatih Bozkurt 257
Alfa-glucan Based Foam Templated Oleogels
-
- P111** Ozlem Karakutuk, Taylan Kablan, Sumeyra Cimen, Salih Karasu, Muhammed Ozgolet, Alican Akcicek, Aziz Tekin, Enes Dertli, Sevda Dere, Zeynep Hazal Tekin Cakmak, Fatih Bozkurt 258
Polysaccharide-Stabilized Emulsion Templated Oleogels as Sustainable Fat Replacers for Different Food Products
-
